Irma School Fair Officials Appointed Committees

At a meeting held in the town hall on Saturday, June 16th, the Irma School Fair directors met to appoint committees and transact the business to be carried out at a date to be decided on in the near future.

The minutes of the previous meeting were read and approved, by Burton, seconded by J. Gulbraa—Carried.

All schools were represented—Albert, Batts, Glenholm, Ross, Alma Mater, junior and senior public school, Irma.

Mr. A. Roberts made a motion, seconded by J. Gulbraa that committee of three be appointed to meet the agricultural society. J. Jones, A. Burton and Mrs. Schonert were chosen.

A motion was made by L. Moore, seconded by I. Archibald that we send for 300 printed ribbons for membership and gate—Carried.

Discussion on prize list changes and committees took place. It was decided to include 25 in the list and let the balance stand. Each chairman has power to appoint helpers to carry on.

Moved by H. Whidden, seconded by A. McRoberts: Mrs. Schonert be chairman of booth committee.

Moved by A. Burton, seconded by J. Gulbraa: Wm. Barber be chairman of sports committee.

Moved by A. McRoberts, seconded

"It's the Talk of the Town" "What Is!"

Irma Sports Day, sponsored by the Irma branch, No. 112, Canadian Legion, B.E.S.L., will be held on July 4. Full bill of sports; a horseshoe tournament will be held. Will anyone having regulation horseshoes please bring same?

Admission 25c each; children under 16 years, free.

A big dance will be held at night in Kiefer's hall; Coulman's orchestra will supply the music, and the admission is 35c each.

Supper will be served by the Ladies' Auxiliary in Hedley's Hall; 15c each.

Will Present Prizes

The six prizes won locally in the recent S. T. I. essay and poster contest will be presented to the winners at an open W.C.T.U. meeting to be held Wednesday evening June 27th, at 7 o'clock, at the home of Mrs. Parke.

Local prize winning essays will be read by the successful competitors. Posters will be on exhibition and an attractive program of readings, music and brief addresses is being prepared. Everybody is welcome.

by A. Burton: J. Gulbraa be chairman of stock committee.

Moved by I. Archibald, seconded by L. Moore: J. Jones be poultry chairman.

Moved by J. Gulbraa, seconded by H. Whidden: A. McRoberts, gate keeper.

Moved by W. Barber, seconded by Mrs. Schonert: A. Burton, door keeper at school.

Moved by W. Barber, seconded by A. McRoberts: I. Archibald and H. Whidden in charge basement and stands.

Moved by A. Burton seconded by I. Archibald: Mrs. H. Whidden and Mrs. McRoberts stewards upstairs.

The meeting then adjourned.

Harmony U.F.W.A. Hold Meet at Mrs. McCreadie's

Harmony U.F.W.A. held the June meeting at the home of Mrs. McCreadie's, on the 14th.

The meeting opened by President Isa Shotts; opening song: "Juanita." This was followed by the Creed in unison; roll call—answered by an account of "My first day in Alberta," which recalled many reminiscences of from 5 to 35 years ago.

Mrs. Shotts gave a very interesting summary of her trip of last summer through the States to Vancouver and Victoria and back across B.C.; she also showed some good snaps of beauty spots taken on the trip which made the guests wish they had been with her sight-seeing as well.

Mrs. Myers, in the absence of Mrs. Vallee, kindly read the Bulletin on Legislation.

The local made arrangements to sponsor a shower and dance at the Avonleigh school on Monday evening, July 9th, the honored guests to be Mr. and Mrs. Geo. Clay, whose marriage was solemnized on June 6th. The meeting closed in singing "Flow Gently, Sweet Afton."

The hostess, assisted by Mrs. Prior and L. Thompson, served a most delicious lunch of salads, sandwiches, coffee, cake, etc., and a delightful hour was spent over the teacups after which a most hearty vote of thanks was tendered Mrs. McCreadie for her hospitality.

The next meeting of Harmony Local will be at the home of Mrs. L. Meyers on Wednesday, July 11th: Opening song, "Alberta," roll call answered, "My most embarrassing moment"; demonstration on beauty culture, by Mrs. Geo. Clay (nee Miss F. Allen). The Bulletin will be read by Mrs. Lambert, current events, Mrs. Marshall-Mrs. Allen; closing song, "It isn't any trouble just to S-m-i-l-e!"

Visitors always welcome at our meetings.

Word has been received that Mrs.

Old Stand—New Trimmings

The appearance of the Club Cafe has been greatly improved recently. Mr. Long has had the outside of the building painted and Mr. Pond, proprietor of the cafe, has replaced the old linoleum with new material, making the popular eating house look much neater and cleaner.

Ida Maine who has made her home with her daughter, Mrs. Allen, until recently when she went to visit her other children, is very ill in a We taskwin hospital. Mr. and Mrs. Geo. Clay visited her on Sunday and finding her so ill, helped to take her to the hospital. Last reports said she was resting a little easier after a bad attack of gall stones. (Mrs. Clay is a grand-daughter of Mrs. Maine).

Born—To Mr. and Mrs. Wm. Cooper on June 14th, a son. The child only lived three hours. Mrs. Cooper is improving nicely. Mrs. Marshall attended her.

Pat Dougherty is putting a well down on 35-46-8 (the Ackroyd property) in Avonleigh district.

Miss Emma Cooper is assisting at the Clelland home.

Mrs. Shotts has built a new chimney on her house and executed some remodeling, and painting the past week or so.

S. M. New has been giving his buildings a new coat of paint.

Mrs. Dunbar visited Mrs. New last week.

Born—To Mr. and Mrs. C. H. Allen on Monday, June 18th, a son.

Mr. and Mrs. S. M. New visited at the Meyers' home on Sunday.

Mrs. Landers, of Kinella, is expected to arrive in Irma and Cranston, Mrs. C. H. Allen and baby.

Irma Ladies' Aid Held Successful June Meeting

The June meeting of the Irma Ladies' Aid was held in the church hall, the roads being too muddy to drive out to Mrs. Askin's residence. Mrs. Tripp presided, and Miss Arnold lead the devotionals. There were 12 members and three visitors present.

The garden party to be held at Knudson's turned into a very successful supper held in the former butcher shop. The committee in charge wish to thank Mr. Foxwell for the use of the building, Mr. Elford for extending a light; Mr. Locke for the tub of delicious home-made ice cream, and especially the folks from Coal Springs for their donations and generous support.

On account of the next meeting day falling on July 12th, the meeting will be held on Wednesday, July 11th, at the home of Mrs. James Fenton.

The meeting closed with the use of hymn: "I need The Every Hour." Mrs. Askin served delicious refreshments and a social hour was spent.

U.S. Folk Visiting Irma

Mrs. L. D. Henry, of Frazer, Minn., accompanied by her daughter, Clarice, of Fargo, N.D., and Master Junior, arrived by car on Friday, June 15th, for a short visit with their daughter and sister, Mrs. C. V. Larson. The trip from Frazer to Irma was made in the fast time of two days in their new Ford V8 coach.

On the return trip this holiday party plan to visit Banff, and Great Falls (Montana).

Progressive Irma

The Irma village council have been doing some worthwhile improvements to the sidewalks in the village. About two hundred feet of concrete sidewalk has been laid, as well as rebuilding an amount of plank walks.

Local Man's Brother Will Preach in England

Mr. Charles Wilbraham received word recently that his brother, Rev. Arthur Wilbraham, M.A., who graduated from St. John's College, Winnipeg, has received an appointment to preach in a parish in Warwickshire, England. Some of the Irma residents will remember Mr. Wilbraham as having visited his parents on their farm here a number of years ago.

Wainwright Nine Win First Honors at Stampede Events

The Coal Springs and Red Star ball teams of Irma took part in the baseball tournament at the Wainwright Stampede last week. Coal Springs took the heavy end of the score in a game with the Red Stars. The Wainwright team won first place. We understand the stampede was not a success financially principally on account of wet, cool weather.

The attendance at the Buckskin Flats stampede on Tuesday was not large. However, the management expected to do better on Wednesday.

"Isaac Waltons" on Trip

Messrs. John Ostad, Carl Anquist, and Cap Larson left by car on Saturday, June 16th, for Long Lake, northeast of Manville, to try their luck at fishing. They returned to Irma Tuesday evening after being successful in landing two hundred nice fish.

Cattle and Sheep

"WHERE YOUR BUSINESS IS APPRECIATED"

Quick Relief Now From Neuralgia

Real ASPIRIN Starts Taking Hold in Few Minutes

Now comes amazingly quick relief from headaches, rheumatism, neuritis, neuralgia... the fastest safe relief, it is said, yet discovered.

Those results are due to a scientific discovery by the Bayer Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking.

The illustration of the glass, here, tells the story. An Aspirin Tablet starts to disintegrate almost instantly as you swallow it. And thus is ready to go to work almost immediately.

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN's quick relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

Gold Still Is King

The lure of gold continues to exercise its sway upon the minds of men. Countries may go off the gold standard. New economists may argue, as they will, against gold as a monetary basis. Despite all the argument "about it and about," the yellow metal still casts its potent spell, alluring men to brave hardship and danger in its quest, compelling men to undertake hazardous expeditions to win it, inducing countries to exert desperate efforts to acquire it. Mirage or otherwise, it glides the horizon of new prophet and old priest, of poet and peasant, of rich and poor, of commoner and peer. Phantasm or reality—gold still is King.

These somewhat worn-out platitudes are evoked by the recent appearance in a financial journal, of two items on gold which, strangely enough, were placed in close proximity. The one was headed: "Nations still scrambling for gold," and the other "£300,000,000 Buried by Pirates Sought." The one article demonstrates the hold which the gold tradition has upon world statesmen; the other epitomizes the ingenuity and risk employed and undertaken in efforts to win the precious metal—a gamble with life and money.

Relative to the international standard, it is stated that, Britain and other non-gold-standard countries, including the United States, of course, are buying gold wherever it can be bought, and that their accumulations of gold now break all previous records.

Replying to the question why the United States continues to purchase gold, the New York Times recently replied that, in principle at least, gold still remained the world's monetary standard. Continuing it said:

"No government is shaping its monetary policies in line with the dreams of the imaginative 'New School Economists.' Every government is recognizing the paramount necessity of return to a stabilized basis of international valuation. Nothing has shown this underlying sentiment more clearly than the fact that every nation—even those which have suspended gold payments—is guarding the gold reserve against the central bank note issues as scrupulously as it did half a dozen years ago. Whereas the Bank of England, at the beginning of 1933, held the smallest gold reserve in more than a dozen years, it has subsequently added nearly \$350,000,000, bringing the reserve to the highest figure in its history. The general process is indirect recognition of the gold standard. The possession of adequate and concentrated gold reserves would unquestionably be of high value whenever return of sound international conditions should make return to sound and stable currencies a possibility."

The other story is somewhat similar to the famous Cocos Island treasure hunt. It refers to a projected expedition from Britain to Tahiti in the south Pacific, to reclaim approximately \$300,000,000 in gold ingots and a fortune in jewels, said to have been buried by pirates in or about 1849. Usually such treasure hunts originate with discovery, in some peculiar manner, of a map of the cache. Such a map Stevenson discovered in his "Treasure Island"; such a map as allegedly may have been found tattooed on the chest of some old sailor in some Barbary Coast "div." In this particular instance, the map came into possession of an Australian in 1900, who, it is said, visited the island and succeeded in removing some of the jewels. These, he subsequently buried—a peculiar enough action for which no reason is given. However, in March 6, 1934, the same gentleman claims to have located the treasure at the exact point indicated by the map. Speaking of the discovery, he says:

"There are only two things to contend with in drilling for the loot—sand and coral. The drill went down through the sand, ground its way through the rough coral and rested on the gold. There is no rock off Tahiti and by the drills, we felt out the shape of the ingots and also are able to determine the extent of the treasure. The drills spin on gold just as a top would on a marble floor."

It is upon such evidence and such representations, apparently, that hard-headed British engineers and business men are prepared to risk their money, and expend their enterprise.

Flootsam And Jetsam

Goods lost at sea and found floating are called flootsam. Goods thrown overboard or jettisoned, during a storm, or washed up from a wreck, are called jetsam.

They do not belong to the finder, even if he cannot trace the owner. They must be handed over to the Crown, and part of their value is paid in compensation.

More Than Satisfied

He had bought a barometer, and a fortnight later the instrument maker from whom he bought it passed the door.

"Well, are you satisfied with the barometer?" asked the instrument maker.

"Rather!" said the owner. "I have had it a fortnight, and we have had fine weather all the time."

Change of Climate, Diet, Water Often the Cause of Diarrhoea

If you are suddenly attacked with Diarrhoea, Dysentery, Colic, Cramps, Pains in the Stomach, Summer Complaint or any Looseness of the Bowels, do not waste valuable time but get a bottle of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will relieve you.

This bowel complaint remedy has been on the market for the past 38 years. Proof enough that you are not experimenting with some new and untried medicine.

Do not accept a substitute. Get "Dr. Fowler's" when you ask for it, and be on the safe side.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

The Great Zambesi Bridge

Remarkable Feat Of Engineering In Heart Of Rhodesia

Spanning the Zambesi Gorge stands one of the highest bridges in the world. This bridge is in the heart of Rhodesia, far from civilization and so near to the great Victoria Falls that trains crossing the bridge are sometimes held up by spray from the turbulent water. The building of this Zambesi Bridge was a marvellous feat of engineering. First of all a rocket had to be fired across the rocky chasm. The rocket was attached to a line, which in turn was fastened to a length of wire and a steel rope.

During the construction of the bridge the builders worked at a dizzy height over the swirling waters below.

When workmen began their task a large net was spread beneath them to prevent catastrophe, should any of them lose their balance.

But instead of steadying their nerves they complained that the net served only as a constant reminder of their perilous position, and so it had to be removed. After a period of little more than six months the bridge was completed and a train travelling at fifteen miles an hour was driven across to test its strength. The structure was painted grey so that whenever the materials rusted in any part the defect would immediately be noticed. This impressive feat of engineering in the wilds in no way detracts from the beauty of the scenery.

Harbor Expert Dead

Sir Frederick Palmer Who Recommended Churchill Was Noted Engineer

News reached Canada recently of the death at Lingfield, near London, England, of Sir Frederick Palmer, the man whose recommendation caused Churchill to be developed as Western Canada's northern sea outlet.

When Hon. C. A. Dunning assumed the portfolio of minister of railways in the Dominion cabinet in 1926, he sent to England, for Sir Frederick, one of Britain's most noted engineers.

Sir Frederick went into the northland and after an extensive investigation, recommended to the government that Churchill be the northern port instead of Nelson.

The recommendation was acted upon, and Churchill became the outlet to the world for Western Canada via the sea.

For many years Sir Frederick was chief engineer of the port of London, England. He served as consulting engineer for many railways both in the old country and India, in addition to being engineer of the Calcutta port. In 1929 he was named engineer for the new \$62,000,000 Charing Cross bridge, London.

Recipe For Iced Tea

Use six heaping teaspoons of "Salada" Black Tea. Brew tea in one pint of freshly boiled water for six minutes. Strain, and pour liquid into a two quart container. While hot, add 1½ cups of granulated sugar and juice of 2 lemons. Then shake or stir contents well, until sugar is fully dissolved. Fill container with cold water. Do not allow tea to cool before adding the cold water, otherwise liquid will become cloudy. This is now ready to serve in tall glasses with clipped ice or cubes. A slice of lemon may be added if desired. The above will make two quarts of iced tea, or seven tall glasses.

Soldiers Stayed In France

Over Thousand Americans Married And Made Home There

More than fifteen years after the bugles blew "cessa firing," about 1,100 American veterans of the World War linger in France. Most of them are "voluntary exiles" for the sake of French wives. Their numbers are dwindling, however, for in 1931 there were 1,700 strong, figures gathered by the American Legion Post show. More than half live in Paris; the rest are spread over forty-nine departments.

Willing To Co-operate

"Woman is very unreasonable," said a venerable New Hampshire justice of the peace. "I remember that my wife and I were talking over our affairs one day, and we agreed that it had come to the point where we must both economize. 'Yes, my dear,' I said to my wife, 'we must both economize, both.' Very well, Henry," she said, with a tired air of submission, 'you shave yourself, and I'll cut your hair.'"

Fifty years in which to pay costs of the court, totalling \$750, has been given to an unsuccessful litigant, Bernard Kelly, a dock laborer in Liverpool.

BABY'S CRAMPS Banished!

"When I could not sleep at night for baby's cries, it was Baby's Own Tablets that cleared the little system of offending substances and gave sweet sleep and rest." That is what Mrs. Robert Greenham, Phillipsville, Ontario, writes. Baby's Own Tablets are mild and soothing in action, yet most effective and always safe for colic, teething troubles, constipation, summer complaint, upset stomach, restlessness and simple fever. Price 50c everywhere.

Dr. Williams' BABY'S OWN TABLETS

Author Of "Beautiful Joe"

Miss Margaret Marshall Saunders Receives Recognition From The King

Smiling and happy at being named in the King's birthday honors list, 73-year-old Miss Margaret Marshall Saunders received many congratulatory messages from friends in Canada and the United States. She was named a Commander of the British Empire.

"The honor does me as much an honor to the women members of the many clubs with which I have done humane work," said Miss Saunders, whose story of "Beautiful Joe," a dog, has been published in 14 languages, put into Braille and is now being translated to Japanese and Burmese. "It touches me much," she said, "that such a tribute should be given to the humane side of women's work."

Miss Saunders, who was born at Liverpool, N.S., did her first serious writing after she was 30 years old. She entered in a United States contest her "Beautiful Joe" as a companion story to "Black Beauty," then being widely published on behalf of humane work. Her entry won the prize and her work became known throughout the world.

Alter Colonial Sugar Duties

Britain Diverts West Indies Product Back To Canada

The British House of Commons has approved proposals contained in a white paper, issued in April to alter the colonial sugar duties in such a way as to divert the flow of the commodity to Canada.

The white paper, issued when the budget came down, would send sugar back to Canada from which it was driven when the pound sterling reached a premium in Canadian funds.

Fall in value of the Canadian dollar dislocated the sugar trade between the Dominion and the British West Indies and sent most of the commodity to the United Kingdom.

The New Style Bicycle

Velocet Allows Rider To Assume Semi-Horizontal Position

Rest when you cycle, may be the sales slogan of Stewart and Ernest Worrall, of Hamilton, Scotland, for their new invention, which they call the velocet. They predict a day not far distant when the ordinary bicycle will take its place beside the bone-shaker as a relic of the past.

The rider of the velocet sits in a semi-horizontal position, thus making it more comfortable than the ordinary machine, and the handlebars stretch almost from the front to the back wheel. A recent race between velocetists and cyclists in Paris resulted in an overwhelming victory for the new machine.

Hurricanes On The Sun

May Cause Drought And Dust Storms Says Veteran Student

Swirling hurricanes on the sun may be the cause of droughts and dust storms in the Mid-West. These great solar storms, which appear to astronomers as mere sun-spots are reaching an 11-year period of maximum intensity. Dr. C. G. Abbott of Smithsonian Institute, Washington, veteran student of the sun and long-range weather predicting, is confident they have a great effect on weather all over the earth. And "I would not say flatly that they have no connection with this drought in the Mid-West."

Don't Read This

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Martyr To Radium

Last Of Scientists Who Aided Mme. Curie Is Dead

Henry T. Koenig, 42, a chemist of Denver, Colorado, who had worked for years under a self-imposed death sentence, died a martyr to his research work in radium.

Koenig was the 20th to die of the 20 scientists who aided Mme. Curie, discoverer of radium, in her research work.

One by one, Koenig's companions died from malignant infection induced by contact with the mineral.

But he continued his work, although he knew that each contact further weakened his system. Through his work and that of his companions thousands have been given relief.

Koenig's work in perfecting a system whereby radium extraction could be accomplished at a lower price than ever before was recognized by authorities as one of the greatest contributions to medical science.

He studied the rich radium ores of the Belgian Congo in 1922 and 1923. His development of the ores in this region remedied all danger of a monopoly in radium.

During the World War he adapted radium to practical use in warfare. The use of radium for the illumination of watch dials at night was the result of his research.

Three months ago he was ordered to Porter's Sanitarium, suffering from cancer of the hip. Treatment failed to check the disease and he died.

Irrigation Plans

Proposal To Irrigate Large Block Of Land In Southwest Saskatchewan

Irrigation for between 5,000 and 10,000 acres in southwest Saskatchewan is proposed in a plan to be urged before the Saskatchewan government.

Facing a feed shortage for the third successive year, farmers around Valmarie and Cadillac ask \$100,000 expenditure to build a dam on the Frenchman river with a 15-mile main ditch south and east through Foot-hills.

Alfalfa would be sown with two crops a year, providing a likely crop of 25,000 tons or enough to feed 20,000 cattle.

An experimental dam is being built by George Newton to serve his farm a few miles west of Valmarie.

J. R. Reid, Regina, is doing the engineering work. A small dam is being built at the Frenchman river, pump installed, and the scheme developed to supplying about 250 acres.

Mr. Reid said that with two crops a year about 1,250 tons of alfalfa can be grown, sufficient to feed 1,000 cattle.

Canada Leads The Way

Comes First In Industrial Recovery According To League Figures

Canada leads the way in industrial activity. League of Nations figures for the first quarter of 1934, compared with the first quarter of last year, show these per centage increases in industrial activity:

Canada, 40 per cent.; United States, 30 per cent.; Germany and Poland, 25 per cent.; Sweden, 18; Japan, 11; Norway, 6; France, 3.

Unemployment is decreasing in all the principal countries of the world except France.

World production of certain important commodities shows an appreciable increase, the figures also reveal.

During the first quarter of 1934, production of coal increased by 20 per cent., of gasoline 12 per cent., pig iron 51 per cent., steel 54 per cent., and zinc 37 per cent., in comparison with the same period of last year.

On the other hand the gold value of world trade again shows a decrease for the first quarter of 1934.

Fraudulent Stock Promotions

Government To Put Spoke In Work Of High-Pressure Salesmen

The House of Commons took the first step recently to spook the work of high-pressure stock salesmen when it reviewed the Consolidated Companies Act which practically remodels the laws governing company formation.

Designed to stop fraudulent stock promotions, the bill would make it impossible to sell promotion stock except through a prospectus, approved by the secretary of state. Among other provisions, fines and imprisonment would be established for any house-to-house stock canvasser or any organization that used a telephone and sucker list to promote sales. Penalties would range from \$500 for a first offence to \$1,000 and a year in jail for subsequent convictions.

Roll Along

Little Ogden's..

He's headed for the fast round-up of smoking enjoyment—"getting along" to full smoking pleasure with Ogden's Fine Cut Cigarette Tobacco.

Hero Of Russo-Japanese War

Admiral Togo, Who Died Recently, Was Idol Of Japanese People

Admiral Marquis Keihachiro Togo, the silent little man whose destruction of the Tsar's Russian fleet, 20 years ago placed Japan among the great powers, died at Tokyo recently.

At the age of 86 and with the rank of Japan's greatest hero, he surrendered to cancer of the throat. Admiral Togo was the last and most illustrious of all the heroes of the Russo-Japanese war. For several weeks he had been seriously ill. The day before he died the emperor elevated the aged sea hero from the rank of count to that of marquis. Posthumously he was promoted to admiral of the highest court rank.

It is now possible to determine the speed of lightning by use of special photographic apparatus. Experiments of this kind recently revealed that the average speed of lightning is around 28,500 miles per second.

Naturalists have discovered that spiders live to a ripe old age. Nevertheless their life often hangs on a thread.

Mr. Robt. Stone went to Edgerton last Tuesday to assist at the bakery in preparation for Edgerton sports day.

Mr. H. L. Hardy returned to his home from an Edmonton hospital on Saturday June 16th, considerably improved in health.

Dr. and Mrs. Greenberg motored to Edmonton on Sunday. Mrs. Ole Enger accompanied them. Dr. Greenberg was taking Mrs. Enger to a specialist for eye examination.

Mr. and Mrs. Fred Knudson are taking a vacation trip to Minnesota by way of Calgary Banff and Lake Louise. They are accompanied by Mrs. Knudson's three sisters, Mrs. Peterson and the two Miss Vicks.

A party who had not been getting The Irma Times, was heard to say, "Depression must be over—we are getting The Times again." We would like to draw your attention to the fact that the Irma Times, while not the official municipal paper, is still a real "home town" paper—for Irma and district, and every home in the village and district who make Irma their shopping centre are getting The Times.

Mr. and Mrs. Peterson and daughters, Eunice and Mabel, of Lougheed, visited with Mr. and Mrs. Erickson on Tuesday. Owing to car trouble they did not get home until Wednesday.

The public and high school examinations are in full swing this week. Owing to a new regulation of the department a high school teacher is not allowed to preside over his own grade XI or XII pupils, accordingly arrangements were made whereby Mr. Mattin and Mr. Reeds exchanged places during the exams.

Hairdressing Special

Finger Wave (not dried)..... 25c
Hair Cut and Shadow Wave..... 50c
(Regular 60c)
June 29-30-July 3.—See Mrs. E. W. Carter, or Phone 39 for appointment.
MRS. Gordon FENTON, Operator.

UNITED CHURCH NOTES

The services next Sunday will be at Albert, Alma Mater and Roseberry at the usual hours. The sermon topic will be "Thinking It Through."

IRMA SUNDAY SCHOOL NOTES
The Irma Sunday School picnic will be held on Friday afternoon, June 29, at Hardisty Lake. Everyone planning to go please meet at the church. A special patriotic Sunday school outdoor service will be held in the grove on Mrs. McDowell's land, north of the church, on Sunday, July 1st, at 11 a.m. The public are cordially invited to attend.

BIRTHS AT VIKING HOSPITAL
Born to Mr. and Mrs. Otto Skori, Kinsella, June 11th, a son.

KINSELLA KERNELS

Kinsella, June 18th.
Mr. Munroe Morrison, of Edmonton, is spending a week's vacation with Jack McKie.

I. L. Smith who has been in indifferent health for some time, is now in the Viking hospital for treatment.

Mrs. Arthur Overby took advantage of the excursion and spent the week-end in Edmonton.

Mr. and Mrs. Eaton, Mrs. Nease and Mr. Wadden attended the funeral of Miss Agnes Thompson in Sedgewick.

Mr. Percy Owens, of Holden, arrived on Monday to take charge of the new Service Station.

Mrs. Olsenburg, of Edmonton, is spending a few days at the Arkinfall home.

Mr. P. Huse was a visitor in town on Monday.
Frank Williams' Garage is receiving a coat of white paint with red trimmings.

"How do you like your new little sister?" asked a visitor at a neighbor's home here of a small boy, "Oh, she's all right, I guess," the youngster replied, "but there's lots of things we needed worse."

JARROW JOTTINGS

Mr. Joe Coleson of Batt, is enjoying a visit from his brother.
Mrs. T. Lockhart was taken to the Lamont hospital this week. We wish her a speedy recovery.

Miss Gladys Meakins, after a brief visit with her parents, is leaving for Edmonton this week where she has secured employment.

Mr. Douglas Barton and Miss Phyllis Barton, of Calgary, spent a few days with their brother, Mr. H. Barton. Mrs. Barton and daughter, Patricia, returned with them to visit with Mr. Barton's people in Calgary for two weeks.

Dominion Day will be the subject of the address to be delivered in the Melbrae school next Sunday at 4 p.m.

We are pleased to learn that Miss Retta Bothwell has been engaged to teach the Jarrows school for another year. Parents and pupils are satisfied with the good work done by Miss Bothwell.

Mr. Robert Rutledge and Miss Bernice Tweedy have returned from Camrose, where they finished their Normal training. They are now full fledged teachers and we hope they will be successful in securing schools.

Jack Wade, of Byemore, is visiting his brother, Ernie Wade, at Jarrows.
All arrangements for the teen-age camps have been made. The girls' camp will open July 11th. We hope that many of our boys and girls will be able to attend and make the best use of their opportunities.

"SO LET US LIVE"

Life is too big for intolerance—
The grade to high ascending;
And aspiration won't combine
With belittling motions blending.

Pruning resenting all away
Enlarges our forgiving,
Through which we rise to sweeter air:
The beauty of true living.

—NANCY ORPHEA PARKE.

Tractor Races Feature of Western Exhibitions

Visitors to the western fairs and exhibitions next month will have the unique experience of seeing farm tractors streak around the race track at mile-a-minute speeds. One of these tractors—the famous Allis-Chalmers, No. 999, which holds the world's speed record for tractors, will be driven by Louis Meyer, famous racing driver, who will use the new low pressure Firestone Farm Tractor Tires. Meyer is the only man who has ever won three A.A.A. championships and is one of the pair who have twice won the Indianapolis Speedway race. Since their introduction several years ago, pneumatic tires for tractors have met with great success. All equipment manufacturers have adopted them and tests show that tractors with these tires are able to do 27 per cent more work with 24 per cent savings in fuel while the tractor life is extended 33 per cent and repairs reduced by 50 per cent.

Amazing Future of Ramie

By STUART CHASE
In the Melbourne New Economics Ramie is a fibrous nettle, painful to the cross-country hiker; more painful to the money system.

It can be grown with a 22-inch fibre, 1500 pounds to the acre (against cotton's 150 pounds), two or three crops a year possible in the south, harvested like wheat by completely mechanized methods.

From the stacks a full automatic factory process—no human hand assisting—can prepare it for spinning. Spun, it makes a cloth seven times as strong as wool, several hundred times as strong as cotton. It has lustre like silk or linen, and takes dye beautifully. It is stronger wet than dry.

It can be made into light, fine paper, too strong to be torn by the human hand.

In mass production the cost of both textile and paper is far below any competing commodity.

Raise Living Standard
Here in the real world, is a discovery capable of immeasurably raising the standard of living.

Science lays it at our door step; science is ready to develop it. Splendid—and terrible.

It will ruin cotton-growing.
It will ruin wool-growing.
It will ruin flax-growing.
It will ruin ramie-growing.
It will ruin wool-manufacturing.
It will ruin the silk industry.
It will ruin the rayon industry.

Municipal District of Buffalo Coulee, No. 453.

NOTICE IS HEREBY GIVEN THAT, UNDER the provisions of The Tax Recovery Act, 1929, the Municipal District of Buffalo Coulee No. 453, will offer for sale by public auction, at Saltaux School on Saturday, the 14th day of July 1934, at 3 o'clock in the afternoon, the following lands:

Each parcel will be offered for sale subject to a reserve bid, and subject to the reservations contained in the existing certificate of title. Terms, cash, unless otherwise arranged.

Redemption may be effected by payment of all arrears of taxes and costs at any time prior to the sale. Dated at Irma Alberta this 24th day of May 1934.

ROY W. HAY, secretary-treasurer.

It will ruin the linen industry.
It will ruin the paper industry.
It will cost one million jobs.
It will break thousands of banks.
It will capsize land values over vast areas.

It will ruin the cotton-growing.
It will undermine insurance companies, savings banks, trusts, estates, foundations, endowments.

Destroy Basis of Taxation
You see? The money system is simply not capable of absorbing such a shock.

It will render worthless billions in bonds, stocks, mortgages, notes.
It will disrupt the transportation system.

It will obliterate perhaps five billion of purchasing power.

It will break through incompletely and badly organized.
Bankers and money men will fight rami as they fought rayon for 20 years but ultimately it will break through. Physics is stronger than metaphysics in the long run.

Promoters Grow Rich
Its promoters will grow very rich, while the industries listed above grow poorer, if, indeed, not completely bankrupt. This will surely happen, unless the money system is remodeled in the meantime.

Heard at the schoolhouse: Teacher: "You know, the camel can go a whole week without touching water." Small Boy: "So could I, if mother didn't make me wash."

TENDERS WANTED

Tenders wanted by the Ross School Board for kalsomining, repairing plaster and cleaning school afterwards. Tenders to be in hands of the secretary not later than July 5th.

Lowest or any tender not necessarily accepted.

IVAN ARCHIBALD, Secretary-Treasurer.
